REVIEWS

MODEL SAID

"So happy to call them my agency, have had amazing opportunities since I signed with them as my mother agency. Super thankful for all the hard work these people do for their models behind closed doors!"

If you're thinking of booking at an inclusive model agency with diverse models, APL MODELS is the agency for you."

MODEL SAID

"AMAAAZING! The first one to do it on this large of a scale: Representing ALL of us, 'cause we're part of society and representation matters. All of this with pure intentions, personal care and without the tokenism or being treated like a number. We're humans and as models with this agency we're being treated that way. APL MODELS is dope! The agency has grown a lot since it was founded in 2019. I'm proud to have been part of that growth and I'm excited for the growth that has yet to come."
